Contents

1 The clinicopathologic spectrum of cutaneous B-cell lymphomas
   L. Cerroni, H. Kerl
   1

2 Effects of light on skin
   D. M. Guerin
   17

3 Reactive and neoplastic histiocytic skin disorders
   J. Wechsler
   27

4 Sentinel lymph node pathology
   A. J. Cochran
   45

5 The clinical and molecular pathology of Barrett’s oesophagus
   L.R. Biddlestone, T.A. Bailey, C.E. Whittles N.A. Shepherd
   57

6 X-ray micro-computed tomography using Synchrotron radiation
   T. Takeda, Y. Itai
   81

7 The molecular basis of inherited skin disorders
   M. Giles S. Dunnill, Irene M. Leigh
   103

8 Routine reporting of non-neoplastic gastric biopsies
   J. Watt
   121

9 Arterial remodelling: mechanisms of altered artery structure and their
diagnostic implications for pathologists
   G.B.M. Lindop, J. J. Boyle
   135

10 Error in histopathology
    S. L. Wakely, P. J. Gallagher
    153

11 Information: theoretical and applied
    J. A. Morris
    165
