## Contents

### 1 Anatomy of the Skin and Skin Flaps
- The Skin .................................... 1
- Types of Skin Flaps .......................... 1
  - Random Pattern Flaps ............. 1
  - Axial Pattern Flaps ................. 2
  - Island Flaps ............................ 2
    - Myocutaneous Island Flaps......... 2
    - Neurovascular Island Flaps ........ 2

### 2 Basic Principles of Facial Surgery
- Suture Materials and Techniques ........ 3
- Instruments and Accessories .............. 5
- Wound Management, Repair of Small
  Defects, and Scar Revision ............ 5
- Relaxed Skin Tension Lines, Vascular Supply,
  and “Esthetic Units” .................... 5
- Wound Management and Scar Revision .... 5
- Management of Wounds with Traumatic
  Tattooing ................................ 7
- Scar Revision by W-Plasty and the Broken-
  Line Technique of Webster (1969) ...... 7
- Small Excisions ............................ 7
- Z-Plasty ................................... 8
- Postoperative Treatment of Scars ....... 9

### 3 Coverage of Defects
- Local Flaps ..................................... 12
  - Advancement Flaps ................. 12
  - Advancement Flap of Burow (1855) .... 12
  - Burow’s U-Advancement ............ 12
  - V-Y and V-Y-S Advancement of Argamaso
    (1974) .................................. 13
- Flaps without Continuous Epithelial
  Coverage (Rettinger 1996) ............ 13
- Sliding Flap ............................... 13
- Pedicled Flaps ............................. 14
  - Transposition Flap .................... 14
  - Rotation Flap ............................ 15
  - Bilobed Flap ............................. 16
  - Rhomboid Flap ......................... 17
  - Turnover Flap ............................ 18
  - Tubed Pedicle Flap (Bipedicle Flap) .. 18
- Distant Flaps ................................ 19
  - Distant Tubed Pedicle Flap .......... 19

### Special Part

**Coverage of Defects in Specific
Facial Regions** .................................. 22

### 4 Forehead Region
- Median Forehead Region .................. 23
  - Wedge-Shaped Defects ............... 23
  - H-Flap .................................... 24
  - Double Rotation Flap ............... 24
- Lateral Forehead Defects ................ 25
  - Forehead Rotation ..................... 25

### 5 Nasal Region
- Glabella and Nasal Root .................. 26
  - U-Advancement Flap of Burow .......... 26
  - V-Y Advancement ........................ 26
  - Sliding Flap ............................. 27

Esthetic Units ................................. 9
Tumor Resection with Histologic Control .. 10
Free Skin Grafts ............................. 10
Composite Grafts ............................. 11
Graft Nomenclature ......................... 11

**Nasal Dorsum** .................................. 28
  - Bilobed Flap ............................. 28
  - Island Flap .............................. 28
  - Rieger Flap .............................. 29
  - Nasolabial Flap ........................ 29
  - Cheek Flap ................................ 29
  - Nasal Tip ................................ 31
  - Bilobed Flap ............................. 31
  - V-Y Advancement Flap of Rieger (1957) .. 32
  - Median Forehead Flap ................. 33

**Larger Defects of the Nasal Tip and Ala** .......... 34
  - Frontotemporal Flap of Schmid and Meyer . 34

**Nasal Flank** .................................. 36
  - Flap Advancement of Burow (1855) ....... 36
  - Median Cheek Rotation of Sercer (1962) .. 36
  - Burow’s Laterally Based Cheek
    Advancement Flap ....................... 37
Contents

6 The Lips 

Mucosal Defects 

Wedge-Shaped Defects 

Large Superficial Defects 

Upper Lip 

Median Deficiency 

Thin Upper Lip 

Thin Upper Lip and Full Lower Lip 

Median Scars and Upper Lip Defects 

Nasal Ala 

Nasal Reconstruction with Distant Flaps 

Nasal Reconstruction with Distant Flaps 

Nelaton Flap 

In-and-Out Flap of Peers (1967) 

Median Forehead Flap 

Bipedicle Flap from the Cheek 

(Weerda 1983) 

Z-Plasty of Denonvilliers and Joseph (1931) 

Anteriorly Based Alar Rotation (Weerda 1984) 

Modification of the Anteriorly Based Alar Rotation 

Coverage with a Transposition Flap 

Lowering the Alar Rim as a Full-Thickness Bipedicle Flap and with a Composite Graft 

Converting a Peripheral to a Central Defect (Haas 1991) and Reconstructing the Alar Rim with a Transposition Flap 

Wedge-Shaped Defect in the Alar Rim 

Nelaton Flap (Nasolabial Flap) 

Sliding Flap of Barron et al. (1965) and Lejour (1972) from the Nasolabial Fold 

In-and-Out Flap of Peers (1967) 

Median Forehead Flap 

Bilobed Flap from the Cheek 

(Weerda 1983) 

The Columella 

Nelaton Flap 

Frontotemporal Flap of Schmid and Meyer (1964) 

Composite Graft 

Partial and Total Nasal Reconstruction 

Converse Scalloping Flap (Forehead-Scalp Flap) 

Total Nasal Reconstruction with the Sickle Flap (Farrior 1974) 

Median Forehead Flap with Soft-Tissue Expansion 

Nasal Reconstruction with Distant Flaps 

Perforations of the Septum 

Small Perforations 

Large Defects 

Oral Mucosal Flap of Meyer (1988) 

Nasolabial Flap of Tipton (1975) 

Bipedicled Flap of Schultz-Coulon (1989) 

NCal Spor revisions 

Small Contractures 

Larger Contractures 

Larger Scar Contractures Causing Lip Retraction 

Defects in the Nasal Floor and Upper Lip 

Transposition Flap from the Nasolabial Fold 

Bilobed Flap 

Central Defects of the Upper Lip 

Celsius Method Combined with an Abbe Flap 

Classic Reconstructive Techniques in the Upper Lip 

Abbe Flap (1898) 

Estlander Flap (1872) 

Upper Lip Reconstruction with a Rotation Flap (Blasius 1840) 

Upper Lip Reconstruction by the Method of Dean et al. (1975) as Modified by Weerda (1990) 

Gillies Fan Flap (1976) 

Lower Lip 

Scar Contractures and Small Defects 

Small Contractures 

Larger Contractures 

Lip Reduction 

Sliding Flaps in the Vermilion 

Classic Lower Lip Reconstructions 

Wedge Excision 

Estlander Flap (1872) 

Vermilion Reconstruction by the Method of von Langenbeck (1855) 

Tongue Flap 

Brown Modification of the Estlander Flap (1928) 

Unilateral or Bilateral Gillies Fan Flap 

Universal Method of Bernard (1852), Grimm (1966), and Fries (1971) 

Reconstruction of the Lateral Lip and Commissure 

Burow’s Method of Reconstructing the Lateral Upper Lip (1855) 

Reconstruction of the Commissure by the Method of Rehn (1933) as Modified by Fries (1971) and Brusati (1979) 

Reconstruction of Large Commissural Defects 

Large Full-Thickness Reconstruction of the Cheek and Commissure 

Asymmetric Defects of the Commissure and Cheek 

Vermilion Defects 

Vermilion Advancement of Goldstein (1990) 

Elongation of the Oral Fissure 

Method of Converse (1959) (Weerda 1983)
Method of Converse (1977) .................. 8 1
Method of Ganzer (1921) .................. 8 1
Method of Gillies and Millard (1957) .... 8 1

7 The Chin ................................ 8 3
Coverage of Small Defects in the Chin Area . 8 3
Advancement Flap .......................... 8 3
Bilobed Flap ............................... 8 3

8 The Cheek ................................ 8 4
Medial Cheek Defects ...................... 8 4
Upper Medial Cheek ....................... 8 4
Esser Cheek Rotation (1918) ............... 8 4
Cheek Reconstruction Combining the
Methods of Esser (1918) and Imre (1928)
(Weerda 1980) ............................. 8 4
Small Cheek Defects ....................... 8 4
Imre Cheek Advancement Flap
(After Haas 1973, Modified) ............... 8 5
Modified Esser Cheek Rotation For Nasal
Flank Defects .............................. 8 5
Defect in the Medial Canthus .............. 8 5
Mid-Anterior Cheek ......................... 8 6
Pedicled Bilobed Flaps ...................... 8 6
V-Y Advancement ............................ 8 7
Upper and Posterior Cheek .................. 8 7
Trilobed Flap of Weerda (1979) .......... 8 7
Bilobed Flap ............................... 8 8
Lateral Cheek Defects ...................... 8 8
Small Lateral Cheek Defects ............... 8 8
Small Preauricular Defects ............... 9 0
Simple Skin Advancement and Rotation
(Burow's Method) ......................... 9 0
Opposing Transposition Flaps ............. 9 0
Large Defects Involving the Auricle .... 9 1
Lateral Cheek Rotation of Weerda (1980c) 9 1
Pedicled Transposition Flaps .......... 9 2
Preauricular Hair Loss .................... 9 3
Inferiorly Based Retroauricular
Transposition Flap (Weerda 1978a) .... 9 3
Large Bilobed Flap from the Neck
(Weerda 1980b) ......................... 9 3

9 The Eyelids ............................... 9 5
Upper Eyelid ............................... 9 5
Direct Closure ............................ 9 5
Semicircular Flap Closure of Beyer-Machule
et al. (1993) ................................ 9 5
Switch Flap ............................... 9 6
Upper Eyelid Reconstruction of Fricke and
Kreibig .................. 9 6
Bilobed Flap ............................... 9 7
Total Upper Lid Reconstruction by the
Two-Stage Mustarde Technique
(Beyer-Machule and Riedel 1993) ....... 9 7
Reconstruction of the Lower Eyelid .......... 9 8
Reconstruction of Small Defects in the
Lower Eyelid ............................ 9 8
Large Defects ........................... 9 8
Reconstruction of the Lower Lid
with Ectropion .......................... 9 8
Transposition Flap ....................... 9 8
Total Lower Lid Reconstruction .......... 9 8

10 The Auricular Region ..................... 10 1
Central Defects ................................ 10 1
Concha ...................................... 10 1
Postauricular Island Flap ................. 10 1
Superiorly or Inferiorly Based
Transposition Flap ....................... 10 1
Temporary Separation of the Helix
(Weerda 1984) ......................... 10 1
Peripheral Defects ......................... 10 2
Helix ....................................... 10 2
Tumor Resection and Helical Defect
Closure with a Decrease in Auricular Size 10 2
Reconstruction of Helical Defects with
Preservation of Auricular Size ............. 10 3
Partial Auricular Defects .................. 10 4
Upper Third Defects ..................... 10 4
Middle Third Defects ..................... 10 5
Burow's Retroauricular U-Advancement
Flap .................................. 10 5
Transposition-Rotation Flap of Weerda
(1980b) ................................. 10 6
Larger Middle Third Defects .......... 10 6
Lower Third Defects ..................... 10 8
Earlobe Reconstruction by the Gavello
Technique .............................. 10 8
Weerda's Modification of the Gavello
Flap .................................. 10 8
Earlobe Reconstruction by the Alanis
Technique .............................. 10 8
Earlobe Reconstruction in Two Stages .... 10 8
Acquired Earlobe Cleft ................. 10 9
Earlobe Reduction ....................... 10 9
Postauricular Surface ..................... 11 0
Subtotal Defects of the Auricle .......... 11 0
Loss of the Auricle ....................... 11 0
Fresh Avulsion Injuries ................. 11 0
Microvascular Replantation .............. 11 0
Replantation of the Auricular Cartilage 11 0
Replantation by the Technique of Mladick
(1971) .................................. 11 1
Auricular Replantation by the Technique
of Baudet (1972) and Arfai (1974)
(Weerda 1980) ......................... 11 1
Auricular Reconstruction Following Total
Amputation ................................ 11 2
Reconstruction of the Ear or Auricular
Region in Patients with Skin Loss or Burns 11 4
