Case-Based Reasoning Research and Development

Third International Conference on Case-Based Reasoning, ICCBR-99, Seeon Monastery, Germany, July 27-30, 1999, Proceedings

Bearbeitet von
Klaus-Dieter Althoff, Ralph Bergmann, Luther Branting

1. Auflage 1999. Taschenbuch. xii, 604 S. Paperback
ISBN 978 3 540 66237 2
Format (B x L): 15,5 x 23,5 cm
Gewicht: 1880 g
# Table of Contents

## Research Papers

Affect-Driven CBR to Generate Expressive Music .................................................. 1  
*J. L. Arcos, D. Cañamero, and R. López de Mántaras*

Probability Based Metrics for Nearest Neighbor Classification and  
Case-Based Reasoning .......................................................................................... 14  
*E. Blanzieri and F. Ricci*

Active Exploration in Instance-Based Preference Modeling ............................... 29  
*L. K. Branting*

A Multiple-Domain Evaluation of Stratified Case-Based Reasoning ................. 44  
*L. K. Branting and Y. Tao*

Bootstrapping Case Base Development with Annotated Case Summaries ........... 59  
*S. Brüninghaus and K. D. Ashley*

Activating CBR Systems through Autonomous Information Gathering .......... 74  
*C. Carrick, Q. Yang, I. Abi-Zeid, and L. Lamontagne*

Integrating CBR and Heuristic Search for Learning and Reusing Solutions  
in Real-Time Task Scheduling ............................................................................ 89  
*J. M. A. Coello and R. Camilo dos Santos*

Towards a Unified Theory of Adaptation in Case-Based Reasoning ................. 104  
*B. Fuchs, J. Lieber, A. Mille, and A. Napoli*

A Knowledge-Level Task Model of Adaptation in Case-Based Reasoning ....... 118  
*B. Fuchs and A. Mille*

Development and Utilization of a Case-Based Help-Desk Support System in  
a Corporate Environment .................................................................................. 132  
*M. Göker and T. Roth-Berghofer*

Modelling the CBR Life Cycle Using Description Logics ................................. 147  
*M. Gómez-Albarrán, P. A. González-Calero, B. Díaz-Agudo, and  
C. Fernández-Conde*

Footprint-Based Retrieval ................................................................. 343
B. Smyth and E. McKenna

Application Papers

Is CBR Applicable to the Coordination of Search and Rescue Operations?
A Feasibility Study ............................................................................. 358
I. Abi-Zeid, Q. Yang, and L. Lamontagne

Integrating Case-Based Reasoning and Hypermedia Documentation: An
Application for the Diagnosis of a Welding Robot at Odense Steel Shipyard .... 372
E. Auriol, R. M. Crowder, R. MacKendrick, R. Rowe, and T. Knudsen

Integrating Rule-Based and Case-Based Decision Making in Diabetic Patient Management ................................................................. 386
R. Bellazzi, S. Montani, L. Portinale, and A. Riva

Managing Complex Knowledge in Natural Sciences ................................. 401
N. Conruyt and D. Grosser

ELSI: A Medical Equipment Diagnostic System ..................................... 415
P. Cuddihy and W. Cheetham

Case-Based Reasoning for Candidate List Extraction in a Marketing Domain .............................................................................................. 426
M. Fagan and K. Bloor

CBR for the Reuse of Image Processing Knowledge: A Recursive Retrieval/Adaptation Strategy ................................................................. 438
V. Ficet-Cauchard, C. Porquet, and M. Revenu

Y. Han and K. Lee

Shaping a CBR View with XML ............................................................ 468
C. Hayes and P. Cunningham

Integrating Information Resources: A Case Study of Engineering Design Support ........................................................................................ 482
D. B. Leake, L. Birnbaum, K. Hammond, C. Marlow, and H. Yang
### Table of Contents

A Hybrid Case-Based Reasoner for Footwear Design ........................................497
*J. Main and T. S. Dillon*

Fault Management in Computer Networks Using Case-Based Reasoning:
DUMBO System .................................................................................................510
*C. Melchiors and L. M. R. Tarouco*

An Architecture for a CBR Image Segmentation System .................................525
*P. Perner*

Supporting Reusability in a System Design Environment by Case-Based
Reasoning Techniques .......................................................................................535
*H. Praehofer and J. Kerschbaummayr*

Case-Based Reasoning for Antibiotics Therapy Advice .................................550
*R. Schmidt, B. Pollwein, and L. Gierl*

Surfing the Digital Wave: Generating Personalised TV Listings Using
Collaborative, Case-Based Recommendation..................................................561
*B. Smyth and P. Cotter*

Case-Based Quality Management System Using Expectation Values ..............572
*H. Taki, S. Hori, and N. Abe*

ICARUS: Design and Deployment of a Case-Based Reasoning System for
Locomotive Diagnostics ....................................................................................581
*A. Varma*

**Author Index** .............................................................................................597
