# Contents

## Education Day

**Invited Talk:** A Software Engineering Program of Lasting Value  
*David L. Parnas*  
1

**Invited Talk:** Weaving Formal Methods into the Undergraduate Computer Science Curriculum  
*Jeannette M. Wing*  
2

## Technical Meetings

### Session 1

**Invited Talk:** Making Mathematical Methods More Practical for the Software Developers  
*David L. Parnas*  
9

Step by Step to Histories  
*Max Breitling, Jan Philipps*  
11

Distance Functions for Defaults in Reactive Systems  
*Sofia Guerra*  
26

Generalizing the Modal and Temporal Logic of Linear Time  
*Bernhard Heinemann*  
41

*Antonio Cerone*  
57

Practical Application of Functional and Relational Methods for the Specification and Verification of Safety Critical Software  
*Mark Lawford, Jeff McDougall, Peter Froebel, Greg Moum*  
73

### Session 2

**Invited Talk:** Algebraic State Machines  
*Manfred Broy, Martin Wirsing*  
89

Meta Languages in Algebraic Compilers  
*Eric Van Wyk*  
119

Random Access to Abstract Data Types  
*Martin Erwig*  
135
Contents

A Monad for Basic Java Semantics ................................... 150
Bart Jacobs, Erik Poll

A Global Semantics for Views ....................................... 165
Christine Choppy, Pascal Poizat, Jean-Claude Royer

Analysis of Downward Closed Properties of Logic Programs .......... 181
Patricia M. Hill, Fausto Spoto

Session 3

Invited Talk: ASM Formalware in the Software Engineering Cycle ...... 197
Yuri Gurevich

Process Calculi for Coordination: From Linda to JavaSpaces ............ 198
Nadia Busi, Roberto Gorrieri, Gianluigi Zavattaro

The Algebra of Multi-tasking ........................................ 213
Colin J. Fidge

A Causal Semantics for Timed Default Concurrent Constraint Programming ...................................................... 228
Simone Tini, Andrea Maggiolo-Schettini

CASL-Chart: A Combination of Statecharts and of the Algebraic Specification Language CASL ........................................... 243
Gianna Reggio, Lorenzo Repetto

Message Authentication through Non Interference ....................... 258
Riccardo Focardi, Roberto Gorrieri, Fabio Martinelli

Session 4

Invited Talk: Plugging Data Constructs into Paradigm-Specific Languages: Towards an Application to UML .......................... 273
Egidio Astesiano, Maura Cerioli, Gianna Reggio

An ASM Semantics for UML Activity Diagrams .......................... 293
Egon Börger, Alessandra Cavarra, Elvinia Riccobene

Approximate Bisimilarity ............................................. 309
Mingsheng Ying, Martin Wirsing

Time and Probability in Process Algebra ................................ 323
Suzana Andova

A Modal Logic for Klaim ............................................. 339
Rocco De Nicola, Michele Loreti
Kleene under a Demonic Star ........................................ 355
   Jules Desharnais, Bernhard Möller, Fairouz Tchier

Session 5

Invited Talk: Pointwise Relational Programming ................. 371
   Oege de Moor, Jeremy Gibbons

Towards a Toolkit for Actor System Specification .................. 391
   Carolyn L. Talcott

Maude Action Tool: Using Reflection to Map Action Semantics to
   Rewriting Logic ........................................... 407
   Christiano de O. Braga, E. Hermann Haeusler, José Meseguer,
   Peter D. Mosses

The Extensibility of Maude’s Module Algebra ....................... 422
   Francisco Durán

A Reuse-Oriented Framework for Hierarchical Specifications ........ 438
   Sophie Coudert, Pascale Le Gall

MIX(FL): A Kernel Language of Mixin Modules ..................... 454
   Davide Ancona

Behavioural Subtyping Relations for Object-Oriented Formalisms .... 469
   Clemens Fischer, Heike Wehrheim

Session 6

Invited Talk: Applying Category Theory to Derive Engineering Software
   from Encoded Knowledge .................................... 484
   Michael Healy, Keith Williamson

A New Logic for Electronic Commerce Protocols .................... 499
   Kamel Adi, Mourad Debbabi, Mohamed Mejri

Extended Institutions for Testing .................................. 514
   Marielle Doco, Virginie Wiels

Testing from Structured Algebraic Specifications ................... 529
   Patrícia D. L. Machado

Author Index ...................................................... 545
