National Competitiveness of Vietnam: Determinants, Emerging Key Issues and Recommendations
# Table of Contents

List of Abbreviations ............................................................................................................. 11
List of Figures .......................................................................................................................... 13
List of Tables and Boxes ......................................................................................................... 15

**Chapter 1: Introduction** ..................................................................................................... 17

1.1 Research Context and Problem ....................................................................................... 17
1.2 Research Objectives ......................................................................................................... 21
1.3 Research Questions and Hypotheses ............................................................................... 21
1.4 Methodology .................................................................................................................... 21
1.5 Structure of the Thesis ..................................................................................................... 22

**Chapter 2: Theoretical Frameworks of National Competitiveness** .......................... 25

2.1 The Concept of Competitiveness ................................................................................... 25

2.1.1 National Competitiveness ......................................................................................... 25

2.1.2 Motivations of Competition among Nations ......................................................... 31

2.1.3 Evolution of Competitiveness Concept .................................................................. 32

2.2 Porter’s Diamond Model ............................................................................................... 33

2.2.1 Determinants in the Model ...................................................................................... 33

2.2.2 The Diamond Model as a System .......................................................................... 35

2.3 Stages of Competitive Development ............................................................................. 37

2.3.1 Factor-Driven Development .................................................................................... 38

2.3.2 Investment-Driven Development ............................................................................ 39

2.3.3 Innovation-Driven Development ............................................................................. 40

2.4 The “Golden” Rule of National Competitiveness ......................................................... 42

2.4.1 Creating a Stable and Predictable Legislative Environment ................................ 42

2.4.2 Working on Flexible and Resilient Economic Restructure .................................... 42

2.4.3 Investing in Physical and Technological Infrastructure ........................................ 43

2.4.4 Promoting Private Savings and Investment (Domestic and Foreign) .................... 43

2.4.5 Developing Ability to Sell on the International Market (Exports) ......................... 43

2.4.6 Focusing on Transparency in Government ............................................................. 43

2.4.7 Harmonizing a Relationship between Wages Levels, Productivity and Taxation ........ 44

2.4.8 Preserving the Social Structure by Strengthening the Middle Class ....................... 44

2.4.9 Investing Heavily in Education ............................................................................... 44

**Chapter 3: Determinants of National Competitiveness** ............................................ 45

3.1 Production Resources ..................................................................................................... 45

3.1.1 Endowment of Production Resources ................................................................... 46

3.1.2 Classification of Production Resources and their Role ......................................... 48

3.2 Technology Development ............................................................................................... 51
3.2.1 Technology and Competitiveness .............................................. 51
3.2.2 The Processing of Technology Development ............................ 53
  3.2.2.1 Technology Transfer ....................................................... 53
  3.2.2.2 Technology Innovation .................................................... 58
3.3 Market Conditions ..................................................................... 61
3.4 International Business and Economic Activities-IBEA .................. 63
  3.4.1 Foreign Direct Investment (FDI), Multinational Corporations (MNCs), and Competitiveness .......................................................... 63
  3.4.2 International Trade Activities and Competitiveness ............... 67
3.5 Company Strategy and Operation (Competitiveness) ................... 68
  3.5.1 Company Strategy ............................................................... 68
  3.5.2 Company Goals and Management ...................................... 70
  3.5.3 Company Size .................................................................... 72
3.6 Government Role ...................................................................... 74
  3.6.1 Public Institutions ............................................................... 75
    3.6.1.1 Institutional Concept ...................................................... 75
    3.6.1.2 Institutions and Competitiveness .................................. 76
  3.6.2 Government Policy .............................................................. 78
3.7 Interdependence among Determinants as a Dynamic of National Competitiveness ................................................................. 80
  3.7.1 Effects on Production Resources ......................................... 80
  3.7.2 Technology and Human Resources .................................... 83
  3.7.3 Influences on Market Condition ......................................... 84
  3.7.4 International Business and Economic Activities and Technology ................................................................. 86
  3.7.5 Effect of IBEAs on Human Resources .................................. 90
  3.7.6 Government’s Influence on all other Determinants ............... 91
    3.7.6.1 Government’s Effect on Production Resources .............. 91
    3.7.6.2 Government’s Effect on Technology .............................. 92
    3.7.6.3 Government’s Effect on Market Conditions ................. 93
    3.7.6.4 Government’s Effect on IBEAs ..................................... 94

Chapter 4: Empirical Study of Determinants Driving Vietnam’s National Competitiveness ................................................................. 97
4.1 Overall Economic Development of Vietnam in the Last Two Decades .................................................................................. 97
  4.1.1 Background ........................................................................ 97
  4.1.2 Economic Performance ....................................................... 98
  4.1.3 International and Regional Economic Integration .................. 103
4.2 Testing Determinants Driving Vietnam’s National Competitiveness ................................................................. 104
  4.2.1 Nature of Competitiveness Indices ..................................... 105
  4.2.2 Data Resources ................................................................. 109
  4.2.3 Construction of Competitiveness Indices ............................ 111
Chapter 5: National Competitiveness of Vietnam

5.1 Production Resource and Competitiveness
   5.1.1 Infrastructure Development and Competitiveness
   5.1.2 Human Resource and Competitiveness
   5.1.3 Capital Resource and Competitiveness
   5.1.4 Production Resources’ Assessment

5.2 Technology Development
   5.2.1 Technology Progress
   5.2.2 Technology Development’s Assessment

5.3 Market Conditions
   5.3.1 Competitive Environment
   5.3.2 Assessment of Competitive Environment

5.4 International Business and Economic Activities (IBEA)
   5.4.1 Foreign Direct Investment (FDI) Activity and Competitiveness
   5.4.2 International Trade Activity and Competitiveness
   5.4.3 Assessment of International Business and Economic Activities

5.5 Company’s Strategy and Operation (Competitiveness)
   5.5.1 Company’s Development and Contribution
   5.5.2 Assessment of Company’s Competitiveness

5.6 Government Role and Competitiveness
   5.6.1 Development of Institution and Government Policies
   5.6.2 Government Role’s Assessment

Chapter 6: Emerging Issues and Recommendations

6.1 Emerging Issues of Vietnam’s Competitiveness
   6.1.1 Production Resources Shortage and Low Quality
   6.1.2 Backward Technology
   6.1.3 Bureaucracy, Red Tape and Corruption
   6.1.4 Slow State-Owned Enterprise Reform

6.2 Recommendations to Enhance the Competitiveness of Vietnam
   6.2.1 Address the Shortage and Quality of Production Resources
      6.2.1.1 Reform Higher Education and Develop Vocational Education
      6.2.1.2 Improve Transport Infrastructure and Strengthen Electricity Supply
      6.2.1.3 Develop Financial Market and Reform Banking System
   6.2.2 Develop an Independent and Vibrant Domestic Private Sector
6.2.2.1 Strengthen State-Owned Enterprise Reform .................. 188
6.2.2.2 Promote Development of the Private Sector ................. 192
6.2.3 Strengthen Public Institution and Government Effectiveness . 194
   6.2.3.1 Launch a Strong and Effective Anti-Corruption
           Campaign ................................................................. 194
   6.2.3.2 Strengthen Public Administration Reform ................. 197
   6.2.3.3 Improve Framework and Enforcement of Legal System ... 198

Chapter 7: Conclusion ..................................................................... 201
Appendices ..................................................................................... 205
Bibliography ................................................................................... 238
