# Table of Contents

## Part I
### Algebras of Multiple-valued Logics and Their Applications

Chapter 1  
Algebras for Hazard Detection  
*Janusz Brzozowski, Zoltán Ésik, Yaacov Iland*  

Chapter 2  
An Abstract Algebraic Logic View of Some Multiple-valued Logics  
*Josep Maria Font*  

Chapter 3  
Representation Theorems and the Semantics of Non-classical Logics, and Applications to Automated Theorem Proving  
*Viorica Sofronie-Stokkermans*  

Chapter 4  
An Algebraic Approach to Entropy and its Generalizations – A Survey  
*Dan A. Simovici*  

## Part II
### Proof Theory and Automated Deduction in Multiple-valued Logics

Chapter 5  
Classical Gentzen-type Methods in Propositional Many-valued Logics  
*Arnon Avron*  

Chapter 6  
Sequent of Relations Calculi: A Framework for Analytic Deduction in Many-valued Logics  
*Matthias Baaz, Agata Ciabattoni, Christian G. Fermüller*  

Chapter 7  
Polarity-based Stochastic Local Search Algorithms for Non-clausal Satisfiability  
*Zbigniew Stachniak*  

Chapter 8  
Model Checking for Multi-valued Computation Tree Logics  
*Beata Konikowska, Wojciech Penczek*
Chapter 9
Complexity of Many-valued Logics ........................................ 211
Reiner Hähnle

Part III
Fuzzy Logics and Their Applications ................................. 235

Chapter 10
Ternary Kleenean Non-additive Measures ............................ 237
Tomoyuki Araki, Masao Mukaidono, Fujio Yamamoto

Chapter 11
On the Hierarchy of t-norm Based Residuated Fuzzy Logics .... 251
Francesc Esteva, Lluís Godo, Ángel García-Cerdaña

Chapter 12
A Development of Set Theory in Fuzzy Logic ....................... 273
Petr Hájek, Zuzana Haniková

Chapter 13
A Fuzzy Generalisation of Information Relations ................ 287
Anna Maria Radzikowska, Etienne E. Kerre

Part IV
Multiple-valued Logics for Control Theory and Rational Belief .......................................................... 313

Chapter 14
Weierstrass Approximation Theorem and Łukasiewicz Formulas with one Quantified Variable ............................ 315
Stefano Aguzzoli, Daniele Mundici

Chapter 15
A Łukasiewicz–style Many-valued Similarity Reasoning. Review ...... 337
Esko Turunen

Chapter 16
Two Values, Three Values, Many Values, No Values ............ 349
Charles G. Morgan
